

QA Testing Report

Project Name: Notary Management System

Module: Title Report (Payment / Create memo (Header Details, Basic Details, Deed & Plan, Lot Details, Related Documents, payment) / Approve Memo / Examination / Branch Approve / Finalised Reports.

Tester: Training QA Engineer

Date: 2026-04-22 / 2026-04-28

Test Environment:

- Browser: Chrome
- OS: Windows 11

Executive Summary

This report summarizes the results of QA testing conducted on the Notary System. The testing focused on validating core functionalities, user flows, and data consistency across modules.

Key Defects Identified

- **Bug 1:** File upload component allow invalid file type
 - **Module:** Payment
 - **Issue:** System accepts and upload (exe file, docx file)
 - **Status:** Done
- **Bug 2:** NIC Number/Reg no and Account No not valid then user can input any text
 - **Module:** Payment
 - **Issue:** System Accepts All text
 - **Status:** Done
- **Bug 3:** Account number not validation then user can input any text (symbol, character,)
 - **Module:** create memo (basic details)
 - **Issue:** Account number accept all text
 - **Status:** Done

- **Bug 4:** phone number not validation the user can input any text (symbol, character)
 - **Module:** create memo (basic details)
 - **Issue:** Account number accept all text
 - **Status:** Done

- **Bug 5:** Amount not validation the user can input any text (symbol, character)
 - **Module:** create memo (basic details)
 - **Issue:** Amount Accept All text
 - **Status:** Done

- **Bug 6:** system should be (perch, SQ.FT, SQ.M, HECTARES) numeric value but user can any insert text
 - **Module:** create memo (Lot Details)
 - **Issue:** user can insert any text
 - **Status:** Done

- **Bug 7:** File upload component allows invalid file types (.exe, .docx, .exe) despite restriction
 - **Module:** create memo (Related document)
 - **Issue:** System accepts and uploads:
 - exe files
 - docx files and all file
 - **Status:** Done

- **Bug 8:** Attached document not displayed and download option not working when clicking View
 - **Module:** create memo (Related document)
 - **Issue:** Document is not displayed after clicking View Download option is not working OR not available
 - **Status:** Done

- **Bug 9:** Amount is not displayed/updated when selecting “Collected” status in Payment Details

- **Module:** create memo (basic details)
- **Issue:** Even after selecting “Collected”:

Amount remains Rs. 0.00

No calculation or update is shown

- **Status:** Done

- **Bug 10:** Currency Type “Other” option does not allow user to enter custom currency

- **Module:** create memo (basic details)
- **Issue:** Input field is not enabled OR User cannot type anything in the field
- **Status:** Done

- **Bug 11:** User cannot edit or add Deed & Plan details after navigating to Lot Details page

- **Module:** create memo (Deed & plan)
- **Issue:** User is unable to:
 - Edit previously entered
 - deed & plan details
- **Status:** Done

- **Bug 12:** NIC Number not valid then user can input any text

- **Module:** create memo (Lot Details)
- **Issue:** System Accepts All text
- **Status:** Done

- **Bug 13:** Data entered in form is not saved when navigating to another page (Data loss issue)

- **Module:** create memo (Lot Details)
- **Issue:** All entered data is lost Fields are reset to empty
- **Status:** Done

- **Bug 14:** option column is displayed in Deed & plans table - should be removed (Approve Memo)
 - **Module:** Approve memo (Deed & plans)
 - **Issue:** "option" column is displayed in the deed & plans table
 - **Status:** Done

- **Bug 15:** The operator can modify details in the Approval section restricted to the Officer role
 - **Module:** Approve memo (Basic details)
 - **Issue:** Officer is able to edit/change approval details
 - **Status:** Done

- **Bug 16:** User can submit "Title Search Request" by selecting only Title Searcher without required document selection
 - **Module:** Examination (Title Search Request)
 - **Issue:** System allows request submission only with Title Searcher selected
 - **Status:** Done

- **Bug 17:** File upload component allows invalid file types (.exe, .docx, mp4) despite restriction
 - **Module:** Title Searcher (Title search details)
 - **Issue:** System accepts and uploads:
 - .exe files
 - .docx files
 - .mp4 file
 - **Status:** Done

- **Bug 18:** Memo Start Time and Approved Date are not recorded in real-time
 - **Module:** Approve memo (create examination of tool)
 - **Issue:** Memo Start time is not matching real-time.
 - Approved Date is also incorrect / delayed / mismatched.
 - Time values appear inconsistent with actual user actions.
 - **Status:** Not Done

Risks Identified

- Data not saving between pages
- File uploading issues

Known Issue

- Reference Field Validation Issue
 - **Description:** Reference field does not enforce minimum and maximum length validation. Users can enter values below or above the expected limit without any error message.
- Not database validation
- Memo Start Time and Approved Date are not recorded in real-time

Test Coverage

- Functional Testing
- UI Testing
- Data Validation
